The **UMSAILS- UAP** Spring School 2022 is being organised by the South Asian Institute of Advanced Legal and Human Rights (SAILS), Centre for Law, Governance and Policy (CELGAP) and the University of Asia Pacific (UAP) centred around the theme of 'Law and Social Justice'.

In every civilised society, law impacts on a citizen's life not only by regulating and shaping human behaviour but also by providing a means of protection against the arbitrariness of executive authority. When a citizen's fundamental rights are threatened, they have to seek resort to legal processes for redress of their grievances. Law comes to the aid of a citizen in upholding their rights – it assists the weak and the oppressed against the might of the rich and the powerful. At the same time, the law facilitates in the creation of an egalitarian society by remedying an unequal distribution of wealth, resources and opportunities so that everyone has a fair chance to thrive in their chosen field. The power of law to achieve social justice cannot be denied.

In the increasingly complex society that we live in today, the interplay between law and social justice demands serious discussion. What role can constitutionally guaranteed fundamental rights play in achieving social justice? How can law achieve justice for marginalised individuals and communities who are far removed from the legal world? How does the law facilitate in establishing environmental justice? Can economic justice be achieved in an increasingly corrupt society? How successful has the existing legal framework been in establishing gender justice? Can access to justice be ensured for all? These are some of the questions that will be tackled during the course of the 5 days of the spring school.

The UMSAILS- UAP Spring School 2022 has been designed to provide law students access to a wide range of topical issues relating to law and social justice. Program components of the spring school involve gaining insights from experts through lectures, participating in the sessions and various other activities. The 5 day spring school – it is hoped – will contribute meaningfully to the ongoing global conversations regarding law and social justice, and help harness the passion and energy of the youth in our quest to shape a better and brighter future.

**Dr. Kamal Hossain**

Chairperson
SAILS

I am happy to note that the South Asian Institute of Advanced Legal and Human Rights Studies (SAILS) in partnership with the Center for Law, Governance and Policy (CELGAP) and Department of Law and Human Rights, University of Asia Pacific (UAP) is organizing the UMSAILS– UAP Spring School- 2022 with the theme ‘Law and Social Justice’ from 18th to 22nd September 2022.

The power of law can be used to achieve social justice, meaning equal distribution of wealth and coffers in a society so that everybody has a fair chance to grow and thrive in whatever field they choose. There's a need to study the being social and political issues and connect them with applicable laws.

This Spring School is a great opportunity for all students and academics to bring forth issues and discuss them at greater length. I hope all the participants are benefitted from participating in the Spring School and also extend my best wishes to the organizing team for their efforts in making this a success.

Professor Dr. Qumrul Ahsan

Vice Chancellor
University of Asia Pacific (UAP)

It gives me great pleasure to note that UNESCO Madanjeet Singh South Asian Institute of Advanced Legal and Human Rights (UMSAILS) in partnership with the Center for Law, Governance and Policy (CELGAP) and Department of Law and Human Rights, University of Asia Pacific (UAP) is organizing the UMSAILS–UAP Spring School- 2022 from 18th to 22nd September 2022.

The theme of the Spring School is Law and Social Justice, which include civil rights violations, corruption, gender justice and abuse, climate justice and other social issues that call for an immediate action on the part of the authorities.

The Spring School is a great opportunity for all the students and academics to discuss these difficult but important issues. I hope the UMSAILS- UAP Spring School 2022 will bring together young law students from all over Bangladesh and give them the chance to interact with renowned international and local academics. The Spring School should act as a platform for the young participant to share their ideas and knowledge.

I wish the organizers, participants and volunteers all the best for the successful completion of the UMSAILS- UAP Spring School 2022.

**Dr. Chowdhury Ishrak Ahmed Siddiky**

Barrister-at-Law

Associate Professor and Head of Department

Department of Law & Human Rights, UAP

&

Deputy Director, SAILS

We are delighted that UNESCO Madanjeet Singh South Asian Institute of Advanced Legal and Human Rights (UMSAILS) in partnership with the Center for Law, Governance and Policy (CELGAP) and Department of Law and Human Rights, University of Asia Pacific (UAP) is jointly organizing the UMSAILS-UAP Spring School on Law and Social Justice.

The spirit of law is to be rooted in all situations of the society in which we live and the same need to be executed through binding mechanisms. Law underpins the values which are to be defended in our social life.

This Spring School is a great opportunity for all the participants to share their ideas with both international and local academics about the way forward and I hope the discussions and academic lectures will help the participants to broaden their perspective on issues that this Spring School has attempted to address.

**Mr. Mohammad Mashiur Rahman Sabuj**

Barrister-at-law

Chairman, Centre for Law, Governance and Policy (CELGAP)

I am pleased to know that UNESCO Madanjeet Singh South Asian Institute of Advanced Legal and Human Rights Studies (UMSAILS) in partnership with Department of Law and Human Rights, University of Asia Pacific (UAP) and the Centre for Law, Governance and Policy (CELGAP) is organizing the UMSAILS-UAP Spring School from 18th to 22nd September 2022.

The theme of the Spring School is 'Law and Social Justice'. The power of the law to help achieve the goal of social justice is undeniable. In every society, the struggle to achieve social justice is premised upon a deep understanding of the legal and constitutional framework. Legal reforms are required to address systemic injustices and discrimination. Laws are required to be passed by the legislative body to address instances of social, political and economic injustice suffered by citizens. At the same time, legal processes are required to be made available to victims of injustice to allow them to seek redress for their grievances. The interplay between law and social justice remains a fascinating topic of discussion for academics and practitioners alike.

The UMSAILS- UAP 2022 provides a unique opportunity for students and academics to discuss and debate topical issues relating to law and social justice. I hope the Spring School will bring together young minds from all across Bangladesh to discuss the challenges ahead in establishing a just society. The Spring School should act as a platform for the youth to share their ideas, knowledge, dreams and aspirations.

I wish the organizers, participants and volunteers all the best for the successful completion of the UMSAILS- UAP Spring School 2022.
